**LEGO® Bricks**

# AFTER SCHOOL

So fun... it won't feel like learning!!

## LEGO® STEM WORKSHOPS AT ST. LINUS

Bricks 4 Kidz® is excited for our spring session at St. Linus Catholic School! Our after-school enrichment classes provide an exciting atmosphere for students to build unique creations, play games, and have loads of fun using LEGO® bricks. The activities are designed to trigger young children's lively imaginations and build their self-confidence. At Bricks 4 Kidz® we are focused on introducing students to principles of science, technology, engineering, architecture and math. We promote problem solving and higher level thinking with all of our themed units.

### STEM Workshops - LEGO® City Engineering! (Grades K-4)

Explore the structures and landscapes of a city! Students will put on their "safety hats" and engineer motorized models of construction equipment, vehicles, power tools & more! Using our proprietary kits and model plans, students will construct one-of-a-kind LEGO® City themed models using LEGO® bricks! Our specialized model plans incorporate beams, gears, axles, motors, battery packs and other technic LEGO® components. Learn what it takes to become a LEGO® City planner! Please visit us online to enroll today!
